 telegraphic news from all parts of the world

 of going to press.

Frank E. Langley, Publisher.

Entered at the Postoffice at Barre as Second  
 Class Matter.

THURSDAY, JANUARY 11, 1906.

The average daily circulation of the  
 Barre Daily Times for the week ending  
 Saturday was

3.885

copies, the largest paid circulation of  
 any daily paper in this section.

Pneumonia is running tuberculosis a  
 close race for the first position in the  
 causes of death in Barre, being now but  
 one lap behind.

The people of Vermont are bracing  
 themselves for the shock which is ex-  
 pected with the publishing of the report  
 on the condition of the state prison.  
 And yet there has been such a suc-  
 cession of shocks from this source that  
 nothing much more severe may be ex-  
 pected.

## ECONOMY PRACTICED.

The last legislative cry of retrench-  
 ment is apparently being heeded in var-  
 ious departments of the state institu-  
 tions, which is gratifying to note. It  
 is an easy thing for legislatures to con-  
 demn extravagances, and it is more  
 easy for candidates for office to howl  
 about cutting down the expenditures.  
 But when the actual time for using  
 the pruning hook arrives there is a dif-  
 ferent story. However, there appears  
 to have been a little practicing of the  
 pruning during the past year. Ac-  
 cording to the state auditor's book the  
 state hospital at Waterbury cost nearly  
 ten thousand dollars less, there was a  
 gain of nearly that amount at the  
 state laboratory and a cutting down  
 at the house of correction of a consid-  
 erable amount. Let the good work con-  
 tinue, provided the efficiency of the in-  
 stitutions is not impaired.

## LOSSES BY FIRE IN BARRE.

The loss by fire in the city of Barre  
 during the year just closed was \$15,-  
 000, there being a total of forty-five  
 cases in which it was thought necessary  
 to call out the fire department. For a  
 city of approximately 11,000 inhabitants  
 the record is exceedingly good. And,  
 indeed, the total was far below the  
 average loss during the past four years.  
 In 1904 fire destroyed property at a  
 value of over double that amount. In  
 the year prior to that the amount went  
 up to the very high total of \$105,863,  
 while during 1902 the loss was only  
 about half what it was for the year  
 just passed. Taking the average of the  
 four, it is found that \$40,000 represents  
 the average annual loss for the last  
 four years. In comparison with this  
 the \$15,000 damage of last year looks  
 small.

To account for this two causes may  
 be ascribed, first that the city has been  
 blessed by a measure of luck in that  
 no large buildings were endangered, and  
 second that the fire fighting equipment  
 has been brought up to a high standard.  
 It is true that the incipient fires—for  
 they could be called scarcely more than  
 that—have been located in buildings of  
 not great monetary value, the contents  
 of which have been correspondingly  
 small. But in spite of that fact prop-  
 erty to the value of \$175,000 was in  
 danger in the forty-five cases which  
 Chief Gladding will report to the city  
 council. And it is reasonable to assume  
 that a great deal of the amount was

Another evidence of the  
 confidence of the public in  
 this Bank is the steady growth  
 of business since organization

saved through the efficiency of the fire  
 department. In speaking of the efficien-  
 cy of the department we refer particu-  
 larly to the promptness with which the  
 firemen are now able to respond to the  
 calls because of the new paid system.  
 Time after time good-sized fires have  
 been nipped off through the celerity  
 with which the department reaches the  
 scene. Valuable minutes are saved now  
 when formerly they were lost in get-  
 ting in position to fight. So, in account-  
 ing for the lessened damage by fire dur-  
 ing the year just closed, considerable  
 stress should be laid on the better fire  
 equipment. At the same time the peo-  
 ple of the city will hope for a contin-  
 uance of the good fortune which was  
 theirs last year.

## JINGLES AND JESTS.

## Chronic With Him.

Attorney for the defense—Have you  
 ever been cross-examined before?  
 The Witness—Have I? I'm a married  
 man.—Life.

## Called His Bluff.

"I've got a good substitute for giving  
 up my seat in a car," said Jones. "In-  
 stead of that, I'm going to ask the lady  
 to sit on my lap."  
 "Don't!" cried Brown. "I tried that  
 once, and she took me up!"—Detroit  
 Free Press.

## NOT WHOLLY IN DOUBT.

Jane's a pretty maiden with  
 A host of worshippers,  
 But I opine she's prettiest  
 In furs.

'Tis true they somewhat hide the shape,  
 That pretty shape of hers,  
 But that's no matter! One, of course,  
 Infer!

## His Little Effort.

"There's one thing," said Fwedly, as  
 the train containing his best girl moved  
 off, "that a woman can throw straight,  
 baw Jove!"  
 "What's that?" asked Cholly.  
 "It's a kiss, dear boy. Haw! Haw!"

## A Cause for Wrath.

"A soft answer turneth away wrath  
 sometimes," remarked the observer of  
 Events and Things; "but it doesn't make  
 any difference how soft the answer is,  
 it doesn't have that effect if the answer  
 happens to be: 'Line a busy!'—Yon-  
 kers Statesman.

## NOTHING!

One day they had a falling out.  
 And played the game of sulk and pout;  
 And what d'ye think 'twas all about?  
 Nothing!

She went to ma's and meant to stay!  
 Which made his dinner late that day;  
 When she returned what did she say?  
 Nothing!

Although he stayed out late that night  
 And drank a glass or two for spite,  
 What did she do to serve him right?  
 Nothing!

Now ere the ending of the week  
 Each caught the other going to seek?  
 What better ending is to seek?  
 Nothing!

Yet friends and neighbors were perplexed  
 And some old ladies even vexed  
 To wait and find what happened next—  
 Nothing!

—Puck.

## Walked Miles Without Boots.

John Marlowe, a lumberman employ-  
 ed by Joseph Gilbert at the latter's  
 camp in Somerset, worked on a side-  
 way with his feet insufficiently protect-  
 ed and as a result both feet were badly  
 frozen. Marlowe made light of his in-  
 juries and tried to work. Then he tried  
 doctoring the feet himself and finally  
 after a week had elapsed and the mem-  
 bers had gotten into a very bad state,  
 he started and walked the twelve or fif-  
 teen miles to Wilmington with his feet  
 bound up in cloth. His suffering must  
 have been indescribable for his feet were  
 raw and bleeding, but he managed to  
 get to Mrs. Boynton's boarding house.  
 Doctor Dunn was called and found Mar-  
 lowe's feet in a dreadful condition. They  
 were treated and Marlowe is likely to  
 escape without the loss of even a toe—  
 a result a good deal more fortunate than  
 he had any good reason to expect.

## But Bill Wasn't There.

A Western Kansas paper tells of a  
 local merchant, Bill Jones, who came to  
 Kansas City several weeks ago to buy  
 a new stock of goods. They were ship-  
 ped promptly and reached home before  
 Jones did. When the boxes were deliv-  
 ered at his store his wife happened  
 to look at the largest, and uttering a  
 loud cry called for a hammer. A neigh-  
 bor, hearing the scream, rushed to her  
 assistance and asked what was the mat-  
 ter. Mrs. Jones, pale and faint, point-  
 ed to an inscription on the box, which  
 read as follows: "Bill inside."—Kansas  
 City Journal.

 Washington, D. C.

Washington, Jan. 11.—The annual  
 meeting of the Vermont State society  
 was held last night and these officers  
 were elected: President, H. B. Moul-  
 ton; first vice president, George E.  
 Grow; second vice president, Erastus T.  
 Johnson; corresponding secretary, Grace  
 Ross; recording secretary, the Rev. Jas.  
 H. Bradford; financial secretary, Benja-  
 min F. Filkins; treasurer, Henry T.

## GREAT PROJECT.

New York Plan for Hospitals Costing  
 \$75,000,000.

New York, Jan. 11.—Details are made  
 known of plans for a chain of municipal  
 hospitals which, when fully realized,  
 will, it is declared, give New York the  
 greatest system of free treatment for  
 the sick the world has seen.

Mayor McCellan, former Comptroller  
 Grout, Bird S. Coler, president of the  
 borough of Brooklyn, and Commissioner  
 of Charities Robert W. Hebbard are the  
 leading advocates of the project. An  
 estimate of the total cost is \$75,000,-  
 000.

The plan is for the development of  
 a central system of hospitals in the five  
 boroughs, the buildings to be of uni-  
 form architecture, the services to be or-  
 ganized on a scheme of unity, and all  
 under the control of one department of  
 the city government.

Events from time to time demon-  
 strate, say those who favor the under-  
 taking, that New York's hospital ser-  
 vice in its several branches is not up  
 to the point of efficiency that the city  
 has a right to expect.

## Wanted the Money.

"Why don't you demand \$50,000 in-  
 stead of \$5,000?" said the lawyer.  
 "Oh, because," explained the lady of  
 the breach of promise suit. "Then he  
 might change his mind and want to  
 marry me."—Detroit Free Press.

## STATE LINES.

Kansas has prohibited the printing of  
 menu cards in any language save Eng-  
 lish.

Nearly \$300,000 worth of Missouri  
 corn-cob pipes were smoked last year.  
 At an average price of ten pipes for \$1  
 but little less than 3,000,000 Missouri  
 pipes have shed their sweetness on the  
 air.

Of 3,000,000 acres put on the market  
 by the state of Texas in September  
 homesteaders have already taken about  
 1,000,000 acres at prices ranging from  
 five to ten times the minimum of a  
 dollar an acre, fixed by the state land  
 commission.

## Jewsharps.

Jewsharps are made principally in  
 Boccaccio, the seat of the industry since  
 the sixteenth century. A good work-  
 man can make seven dozen in a day,  
 and, simple as the little instruments  
 are, no fewer than twenty tools are  
 employed in their manufacture.

## Hartford.

Hartford was a mistaken spelling of  
 Hartford, the name of a town in Eng-  
 land. The word means "army ford."

## The Frolics Turbot.

One of the most prolific of fishes is  
 the turbot. The number of eggs in five  
 specimens examined by a scientist re-  
 cently varied from over 5,000,000 to  
 more than 10,000,000. The heaviest of  
 these specimens weighed only twenty-  
 one pounds, and the belief is expressed  
 that large specimens are still more fer-  
 tile.
